

SP 1 Spare Packet SDM 4000 RS Wireless Tie Bar Measuring System

manufacturer :
partnership

Product number:
SM3083

Description

Tie Bar Measuring System

Model	SP 1 Spare Packet for SDM 4000 RS
-------	-----------------------------------

Scale of delivery

1 RS-measuring amplifier for battery mode	BTRS1
1 measuring case	

Description

RS-measuring amplifier BTRS1

The RS measuring amplifier is placed on the machine tie bar and pressed onto the tie bar surface by means of 2 magnets. When the machine is closed, the resulting strain (change in length) of the tie bar is measured by the built-in strain gauge sensor and the strain measurements are sent to the netbook via the integrated radio module of the RS measuring amplifier. The RS amplifier has a built-in lithium battery with large capacity and charging electronics.

Application

Measuring the strain of tie bars and calculating the locking force of die casting machines and injection moulding machines.
