

Maus drilling- and turning center for aluminium wheels line 7, used

manufacturer :
Maus

Product number:
BA2333

Description

Machining center	Drilling- and vertical turning center
Manufacturer	Maus
Control system	Siemens CNC 840D powerline
Year of manufacture	2004
	Linie Nr. 7
Field of application	complete dry machining of aluminium

	wheels up to 22,5"
--	--------------------

Drillingmachine

Model	MDC 502 PW2
Design	double-spindle

Verticale tuning center

Model	MTV P 508 EW
Design	double-spindle

Automation

Description	Automatical transport of wheels from
	drilling to turning incl. loading
	and unloading
Model	M 3000 OC

Camera detection

Manufacturer	Ziehmann and Urban
Description	
Delivery time	immediately
Price	on request

Subject to alterations and prior sale.
